

## WALL INSTALL TEMPLATE

## DETAILS:

### Top-Load / Easy Access Acrylic Sleeves for Info/Poster Inserts

**1-2.** CWW wall-to-wall cable sets are supplied in longer lengths and can be cut shorter to fit in designated space (\*cable should be cut to size only after the fittings are mounted to wall and acrylic holders are attached and spaced on the cables). Follow the instruction step-by-step to ensure that cables are mounted and tensioned properly.

**3-4.** Acrylic holders / sleeves are mounted to vertical cables with **CG01** side supports. Sleeves can be spaced vertically as needed.

**Note:** Easy access acrylic holders are designed as 1/8" thick clear acrylic folded style frames with tabs on the side of frame to enable for cable/rod display fittings to attach. Sleeves are supplied in "non-glare" acrylic. Non-glare (non-reflective) acrylic front cover helps to reduce the glare and provides a mild protection against harmful UV rays.

**Hardware:** All fixings, components supplied in satin chrome finish.
