Wall Display Concept

ID: DC2135

Title: Photo Wall Display

Display Size:
34" H x 139" W

Wall Size Requirements:
14 FT (168 IN) Wide

Wall Install Template

ID: DC2135-WT

Note: Dimensions on the drawing display hardware mounting points on the wall. These are suggested dimensions and can be slightly modified to accommodate for your own wall specifics.

DETAILS:

Acrylic Frames for Photo Inserts / Single-Rod Mount

1. Acrylic frames used with horizontal rod system are supplied with "clear" or "non-glare" front. Both back and front panels are a 1/8" thick.
2. Join together two **R1500-10** (59" long) rods and one **R500-10** (19" long) rod to create a continuous 138" long rod for each row. Rods are mounted onto the wall with **WM11-10** supports. **P01** decorative support plates are optional. Use **REC-10** end caps for rod-ends finishing.
3. Use **RG12-10** multi-position / adjustable angle supports to mount the acrylic frames to rods in horizontal or freestyle angled orientation.
4. Inserts are placed in between the two pieces of acrylic before mounting them to rods.

Note: Non-glare (non-reflective) acrylic front cover helps to reduce the glare and provides a mild protection against harmful UV rays.

Note: This drawing is the property of Nova Display Systems and is not to be reproduced or copied in whole or in part. It is only to be used for the project and site specifically identified herein and is not to be used on any other projects, or for the purpose of manufacturing and reproduction. It is to be returned upon request.
