12 FT (144 IN) Wide

## Wall Install Template

ID: DC2137-WT

**Note:** Dimensions on the drawing display hardware mounting points on the wall. These are suggested dimensions and can be slightly modified to accommodate for your own wall specifics.

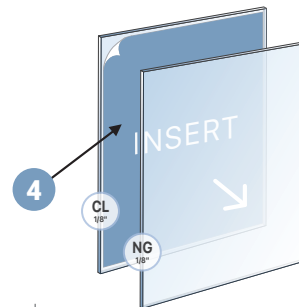

### DETAILS:

#### Acrylic Frames for Photo Inserts / Single-Rod Mount

1. Acrylic frames used with vertical rod system are supplied with "clear" or "non-glare" front. Both back and front panels are a 1/8" thick.
2. Use a single 59" long R1500-10 rod per each column. Rods are mounted onto the wall with WM11-10 supports. P01 decorative support plates are optional. Add REC-10 end caps for rod-end finishing.
3. Use RG12-10 multi-position / adjustable angle supports to mount the acrylic frames to rods in strict vertical or freestyle angled orientation.
4. Inserts are placed in between the two pieces of acrylic before mounting them to rods.

**Note:** Non-glare (non-reflective) acrylic front cover helps to reduce the glare and provides a mild protection against harmful UV rays.

Vertical Orientation

Freestyle / Angled Orientation
